SHINING MOMENTS

SIRIUS®
SHINING MOMENTS

Living 2026

Our Living 2026 collection will let you dive into a more ecofriendly world.

We are enlarging our assortment of solar and rechargeable products,
and we will provide you with products that give you a great ambiance
of glow, softness and warmth.

Our philosophy is to combine environmentally friendly lights
with a great design and a perfect function.

And we try our very best to give you the most beautiful lights
for your home and your garden.

SIRIUS Partners:

TEAM RYNKEBY is our new collaboration partner and we are proud to support the Team as a
Gold sponsor — supporting children with critical illnesses.

We have a close collaboration with "LUNGEFORENINGEN", who are very happy with our
Sille Candles and artificial Christmas trees, which are better for our lungs and indoor climate.

"MUSIK I LEJET" is one of Denmark's most popular music festivals in Tisvildeleje.

The festival creates coziness and atmosphere with our large range of colored
lamps & outdoor lighting as well as project lighting.

We have a great collaboration with the "MUSKELSVINDFONDEN" through
"GRØN KONCERT" music and "CIRKUS JUL" for the children.

Our cooperation with "LIONS" have lasted for more than 30 years and is still ongoing.

They are grateful for our donations so they can help their cause.

A photograph of a sunset over a body of water, with the sun low on the horizon creating a shimmering, golden bokeh effect on the water's surface. In the foreground, several green, ribbed solar lanterns with black handles are arranged on a wooden deck. The lanterns are illuminated from within, casting a warm glow. The background is filled with lush green foliage, including ferns and flowering plants. The overall mood is serene and peaceful.

Outdoor

SOLAR COLLECTION

Step 1

Place the solar panel of your Sirius light under direct sunlight.

Step 2

Leave the product to charge in the sun during the day.

Step 3

If compatible, use the Sirius remote timer function to set your products to turn on and off at a specific time every day.

PLEASE NOTE

Products without an ON/OFF button will automatically turn on after the sun sets.

Find me

Our solar collection is labeled with this solar icon.

Our rechargeable and solar ranges are labeled with the GREEN ENERGY logo.

New

Aston

Aston Solar Jar is inspired by the maritime atmosphere of a summer night around the harbour. Aston combines sustainability and functionality in one, where 2 hours in the sun will keep the jars powered through the night. Use the Sirius remote to turn on according to your preferred time interval.

The Rechargeable Collection

REMEMBER THE MULTICHARGER

Step 1

Plug in your multicharger to an outlet.

Step 2

On the multicharger, slide the button towards the function compatible with the lights you need to recharge.

Step 3

Place your rechargeable lights on the multicharger, and make sure the LED lights on the plate turn red.

Step 4

Only remove the decoration from the multicharger when the plate's LED turn from red to green.

PLEASE NOTE

The red and green LEDs indicate the product battery level.

Find me

Our rechargeable collection is labeled with this multicharger icon.

Our rechargeable and solar range are labeled with the GREEN ENERGY logo.

New

Dea rechargeable

Dea is a combination of a vintage oil lamp and a modern LED light. Dea keeps the aesthetic of the oil lamp without the safety hazard or harmful indoor air pollution that comes with it. The oil imitation is made of silicone, and flame is replaced with a 3D-LED flame that emits a pulsating light. Dea is for indoor use.

INDICATE THE PRODUCT'S BATTERY LEVEL

Multicharger

The Sirius Multicharger is essential to the Sirius rechargeable range. It enables the lights to recharge when they are low on battery. The small LEDs on the multicharger indicates the battery level of your light. Once the LED has turned from red to green, your Sirius product is ready to be used once again. Make sure to slide the button of the multicharger to select the correct charging function before placing the rechargeable lights on.

88820 MULTICHARGER 3 STATIONS

LED	3	CABLE LENGTH	1m
COLOUR	White	TECH./INFO	USB-A to USB-C
DIMENSIONS	22x23cm	PACKING	6

88821 MULTICHARGER 7 STATIONS

LED	7	CABLE LENGTH	1m
COLOUR	White	TECH./INFO	USB-A to USB-C
DIMENSIONS	Ø35cm	PACKING	4

NOTE the Sirius Multicharger is not included with the rechargeable lights.

**The Dea family
comes as
rechargeable lamp
and with
battery — see page 119**

REMEMBER THE REMOTE CONTROL

Multicharger

Step 1

Plug in your multicharger to an outlet.

Step 2

On the multicharger, slide the button towards the function compatible with the lights you need to recharge.

Step 3

Place your rechargeable lights on the multicharger, and make sure the LED lights on the plate turn red.

Step 4

Only remove the decoration from the multicharger when the plate's LED turn from red to green.

PLEASE NOTE

The red and green LEDs indicate the product battery level.

Find me

Our rechargeable collection is labeled with this multicharger icon.

Our rechargeable and solar range are labeled with the GREEN ENERGY logo.

A Guide to THE REMOTE CONTROL

Step 1

Point the remote control to the compatible Sirius lights.

Step 2

Use the timer function to set your products to turn on and off at a specific time every day.

Step 3

Use the dimmer function to choose the light intensity of your choice. The dimmer function has 3 different intensities.

Find me

The Sirius lights that are compatible with the remote are marked with this remote icon.

Remote

CR2032

The Sirius Remote Control is made of a matt aluminum finish, and combines both aesthetics and functionality at once. Use the built-in timer, dimmer or ON/OFF functions to control your Sirius lights simultaneously. Note the remote has an average range of approximately 10 meters.

Dea

Dea is a combination of a vintage oil lamp and a modern LED light. Dea keeps the aesthetic of the oil lamp without the safety hazard or harmful indoor air pollution that comes with it. The oil imitation is made of silicone, and flame is replaced with a 3D-LED flame that emits a pulsating light.
